

## Perspectives on the Evolution of Structures

### HW 6

#### Writing Assignment #2 (final draft)

**Assignment:** Revise, edit, and rewrite your draft critique from HW4 into final form for submission and grading.

**Guidance:** Give careful consideration to the comments made by your peers during the peer editing session. Also, give the draft critique a careful reading of your own. Continue to strive for clear, persuasive critique supported by evidence, all set in the context of the 3 S's/E's.

**Details:** Bring one printed copy of your essay to class for submission. At the end of your essay, after the references section, write 1-2 sentences describing how your peer editing experience affected your writing. Remember:

1. Include a photo
2. Cite all sources
3. Have a thesis statement
4. Support the thesis statement
5. Have a conclusion

*Note:* All participants in the class are on equal footing for providing an excellent essay, as such, grading on the essays has been historically stricter than earlier assignments.

**Grading rubric:** The final draft of this assignment (HW6) will be graded according to the following rubric:

| Category                                  | Points |
|---|--------|
| Correct sections                          | 2      |
| Correct length, typeface, and margins     | 2      |
| Complete and correct citations/references | 2      |
| Use of images and illustrations           | 2      |
| Thesis statement                          | 2      |
| Structural description                    | 2      |
| Social/economy argument                   | 2      |
| Scientific/efficiency argument            | 2      |
| Symbolic/elegance argument                | 2      |
| Overall style and quality of writing      | 2      |
| Total                                     | 20     |
